

## Experience

Mr. Li began his career with SPTDI (Shanghai Postal and Telecommunication Design Institute) first as a junior structural engineer, then as an engineer upon receipt of his degree from Tongji University in 1992. Through his eight years as a structural engineer, he increased his engineering knowledge as well as the understanding of architectural, building mechanical/electrical system design and planning concept.

Mr. Li moved to Calgary in 2000, and joined KellamBerg Engineering & Surveyors Ltd. where he continued his career from May 2001 to July, 2007. He had the opportunity working at variety positions including: draftsman, field inspector, design engineer, project engineer and manager. From 2004 to 2007, he was responsible for design, city approval, coordination and client liaison.

Richview Engineering Inc. has completed or is currently undertaking the design of following projects in Alberta, British Columbia and Saskatchewan
