

Team

Bin (Robin) Li P.Eng President
As president of Richview Engineering Inc., Bin (Robin) Li directs the overall activities of the firm, with a special emphasis on engineering design, coordination, and city approvals.

Mr. Li began his career with SPTDI (Shanghai Postal and Telecommunication Design Institute) first as a junior structural engineer, then as an engineer upon receipt of his degree from Tongji University in 1992. Through his eight years as a structural engineer, he increased his engineering knowledge as well as the understanding of architectural, building mechanical/electrical system design and planning concept.

Mr. Li moved to Calgary in 2000, and joined Kellam Berg Engineering & Surveyors Ltd. where he continued his career from May 2001 to July, 2007. He had the opportunity working at variety positions including: draftsman, field inspector, design engineer, project engineer and manager. From 2004 to 2007, he was responsible for design, city approval, coordination and client liaison.

Mr. Li is currently registered as a Professional Engineer in Alberta, Saskatchewan, Manitoba, Northwest Territory and British Columbia; he looks forward to focusing on land development design for the duration of his career.

Jacky Wang M. Finance, B. Science
Coordinator

^

Mr. Wang is currently in charge of the Drafting Department, his responsibility is to ensure the quality of the product and the deadline to be met.
